Wingfoiling

EQUIPMENT RENTAL & LESSONS

Wing Surfing is a COOL new sport for water sports enthusiasts. Winging combines elements of windsurfing, kitesurfing, surfing, and foiling. You ride on a SUP Foil board or regular SUP board while holding a handheld inflatable sail, known as a "wing".

Harness the power of the wind from our Surf Shack Beach when you glide above the waves. Put our strong wind to work from November to July at this world-class watersport staging area, along with protected flat water inside the reef and waves outside. Seasoned riders can rent equipment and lessons will take you from beginner to pro in no time.
