COCONUT BAY REVEALS ITS ADVENTUROUS SIDE

From families to honeymooners, clients at Coconut Bay Beach Resort & Spa enjoy an exceptional all inclusive experience in the perfect St Lucia location.

The island's Petit and Gros Pitons are a UNESCO World Heritage Site, and a trip to St Lucia isn't complete without taking in this iconic site. On Coconut Bay's 'Piton Sail & Snorkel' tour your

clients can take a catamaran to the Pitons, stopping at a reef that is home to more than 150 different species of fish.

Alternatively, thrill seekers on the 'Piton Zip Tour' can take to the air at Morne Coubaril Estate, where they'll zip under Petit Piton and snap airborne photos while taking in views of Soufriere and the Caribbean Sea.

Coconut Bay's 'Soufriere Exotica' takes clients on a breathtaking west coast drive to Sulphur Springs Park, where in addition visiting a drive-in volcano, they'll swim in a plunge pool under the Piton Waterfall, soak in the warm mineral springs and play in the mud of a therapeutic bath. Then it's time to relax on a white-sand beach or snorkel at the base of the Pitons.
